

Emerging Manufacturing Collaboration Center
EMC²

16 TECH

EMC² Objectives

- **Leveraging** Indiana's historical and diverse manufacturing industries to collaborate toward next generation.
- **Establish** industry leading facility capabilities, core training outreach, and onsite industry resources that offer "THE" place for success.
- **Outreach** to attract those outside of Indiana towards collaboration, sustainment, growth, and new sectors of business around connected manufacturing.
- **Collaboration** with Indiana's other lab initiatives that provide core proficiencies in support.
- **Securing** new technologies, companies, jobs, and skilling up workers towards furthering industry in our state and nation.

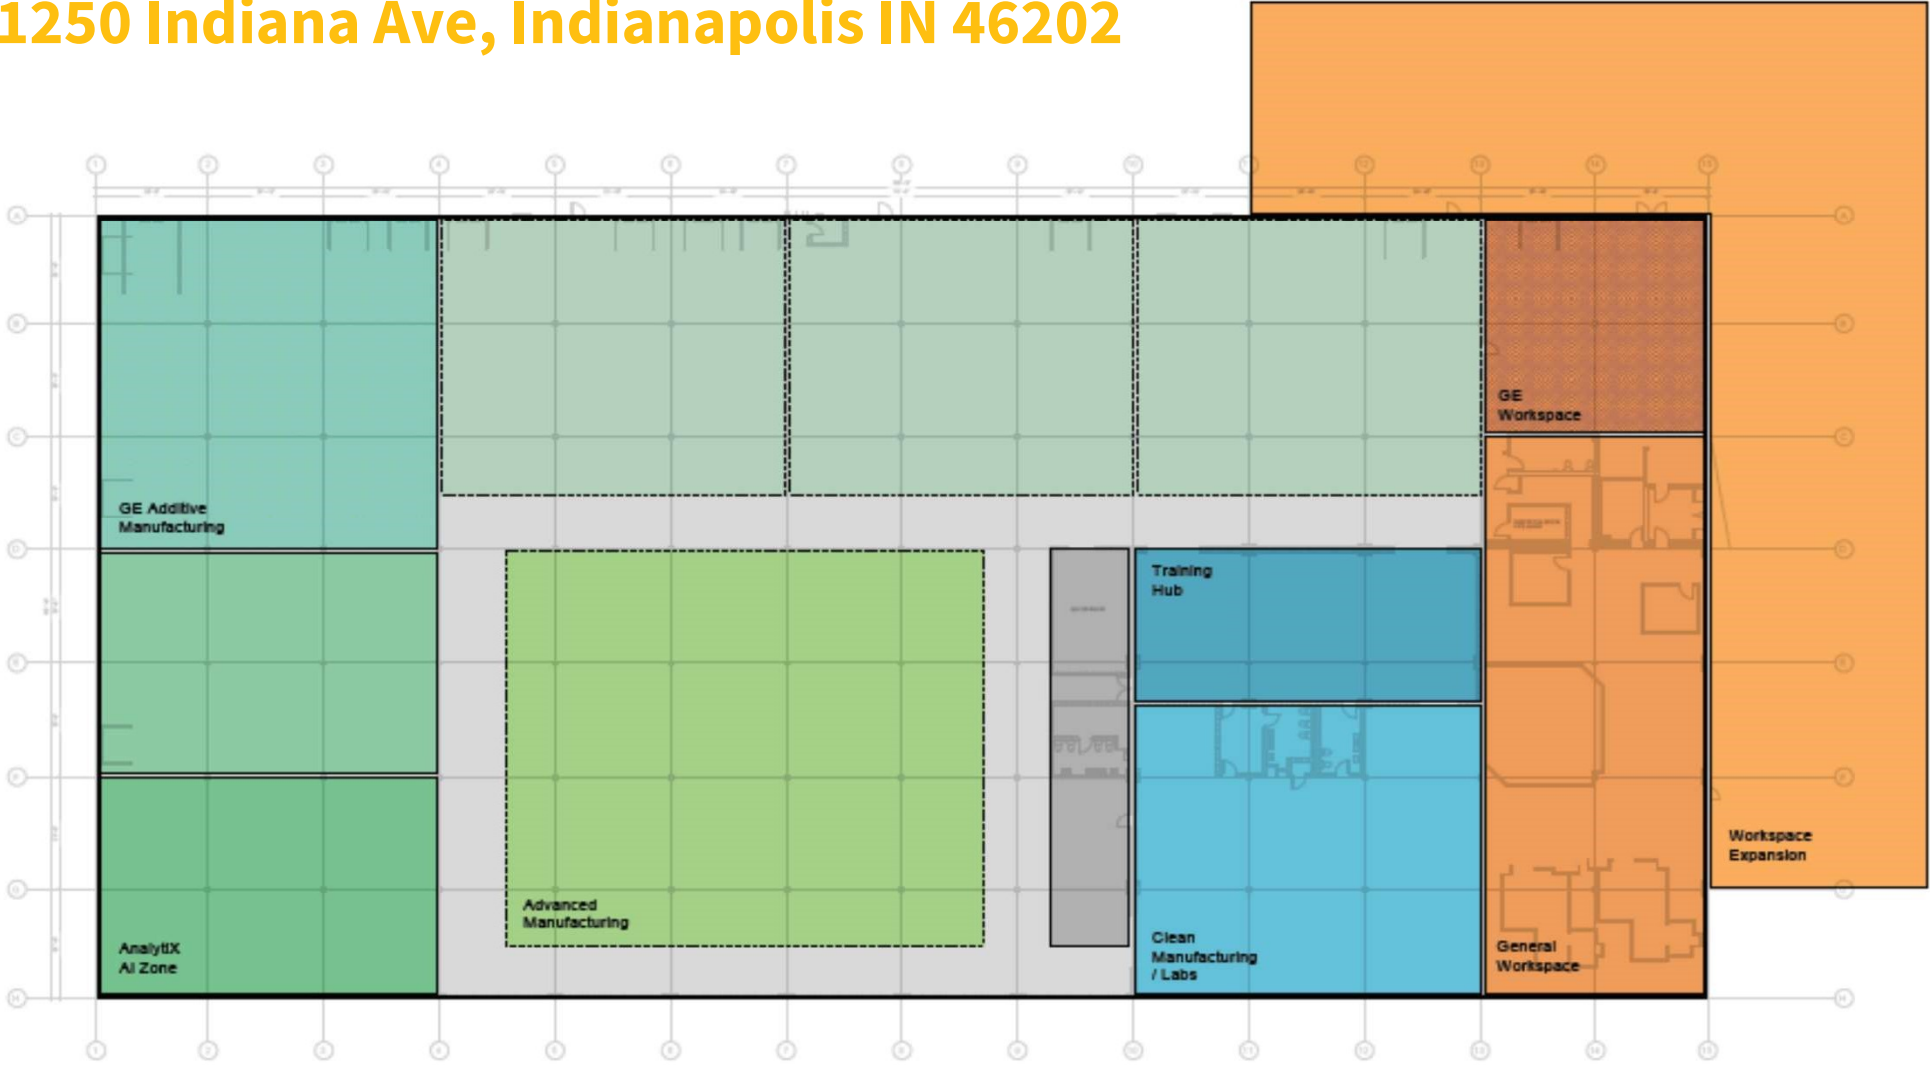

Phase 1 Facility Space

Move in date: Aug 1, 2021

1250 Indiana Ave	
Mixed Use Office	10,000 sqft
Light/ Clean Industrial	10,000 sqft
Manufacturing	42,000 sqft
Totals	62,000 sqft

1250 Indiana Ave, Indianapolis IN 46202

EMC² Capabilities

- IoT / 5G/ Connected Devices
 - Automation and Robotics
 - AI / EDGE / Machine Learning
 - Life Sciences Manufacturing
 - Clean Room/Dry Room
 - Modeling and Simulation
 - Training and Education
-

IEDC Sponsored GE Additive R&D Matching Grants

Focused on Binderjet

- 50/50 match
- Supply Chain Partner Engagement
- Improved Automation
- Technology Enablers
- Customer Tech Insertion

Future Industry Days

- Focused on specific opportunities
